**The Problem:**

- Steps and falls are the leading causes of accidental death and third leading cause of disability - CDC
- Steps and falls are the leading cause of workers’ compensation claims - NFIB
- Steps and falls are the greatest source of general liability claims within the restaurant industry in the USA - National Restaurant Assocation
- Steps and falls are the most common workplace hazards and make up one third of all major injuries - HSE, UI
- In the USA alone 85% of workers’ compensation claims are attributed to employees slipping on slippery floors - Industrial Safety & Occupational Health Marketer 5th edition

**Compensation and medical costs associated with employee slip-related accidents in the USA:**

- $20 billion annually (in the USA alone)
- $70 billion annually (in the USA alone)

**No Skidding®**

- High-traction, slip-resistant coatings, treatments, floor care, sealers, tapes, and FRP step covers, panels and plates are a quick and easy way to reduce slip-and-falls and help to ensure a safer environment for workers and visitors. No Skidding® FRP step covers, panels and plates are an easy and quick solution for making walk ways, ramps and stairs anti-slip when weather conditions won’t accommodate an anti-slip coating or anti-slip tape or limited downtime won’t accommodate an anti-slip coating.

Let us help you create a safer environment today.

**The Solution:**

- **No Skidding®** - First in Anti Slip Products Since 1993

No Skidding® FRP Step Covers, Panels and Plates are suitable for interior and exterior concrete, wood, stone, metal or brick. They are used on stairs, walkways, ramps, vehicles, decks and landings to rapidly remedy slippery areas with minimal downtime. Unlike Anti-Slip Coatings or Anti-Slip Tapes, No Skidding® FRP Tapes and Panels can be installed in minutes and the application in very cold or wet areas where the application of a coating may be impractical.

No Skidding® manufactures and distributes a complete range of anti-slip solutions which can be used both indoors and outdoors. We serve industrial, commercial, retail, restaurants, governments, farms, mining, petroleum, military, healthcare, hospitality and virtually any industry that is concerned with safety.

No Skidding® Anti-Slip Fiberglass (FRP) Solutions

No Skidding® instant anti-slip solutions for stairs, ramps, floors, decking, vehicles.

Provide immediate anti-slip safety with almost indestructible Anti-Slip FRP Solutions. No Skidding® FRP Tapes and Panels are suitable for interior and exterior concrete, wood, stone, metal or brick. They are used on stairs, walkways, ramps, vehicles, decks and landings to rapidly remedy slippery areas with minimal downtime. Unlike Anti-Slip Coatings or Anti-Slip Tapes, No Skidding® FRP Tapes and Panels can be installed in minutes and the application in very cold or wet areas where the application of a coating may be impractical.
Features and Benefits of No Skidding® Anti-Slip FRP Solutions:

- Durable FRP base that resists warping, stretching and swelling.
- Resistant to salt and salt water.
- Superior grit anti-slip surface available in coarse, medium and fine textures.
- Quick and easy installation in all weather conditions. Can be walked on immediately with minimal loss of time and work stoppages.
- Suitable for concrete, wood, brick, stone and metal interior and exterior applications.
- Easy to install - can be screwed into place or glued into place with a urethane / polyurethane adhesive.
- Suitable for concrete, wood, brick, stone and metal interior and exterior applications.
- Can be installed even in winter months using screws.
- Available in easy to install treads and panels.
- Available in black or yellow and also black with yellow safety stripe for our flat plates and step covers.
- Available in easy to install treads and panels.
- Can be installed even in winter months using screws.
- Can be walked on immediately with minimal lost time and work stoppages.
- Quick and easy installation in all weather conditions.
- Superior gritted anti-slip surface available in coarse, medium and fine textures.
- Resistant to salt and salt water.
- Durable FRP base that resists warping, stretching and swelling.
- Can be pressure sprayed up to 1000 psi.
- FRP Step Covers and Treads are designed to be applied over existing stairs thereby quickly creating a safe, slip-resistant surface that provides traction and safety.
- Panels are 3/8” thick prior to grit-coating.
- Available with three grit options: Coarse/Heavy Duty, Medium and Fine.
- Single Color Treads - YELLOW or BLACK only
- Two Color Treads - 2” YELLOW edge with BLACK tread
- Panels are 1/8” thick prior to grit-coating.
- A beveled back edge to minimize any potential trip hazard supplied with our 3 inch tread.
- Suitable for concrete, wood, brick, stone and metal.
- Can be fixed permanently with screws or adhesive.
- Suitable for exterior and interior areas over wood, concrete, brick, stone and metal.
- Available in a variety of sizes.
- Can be fixed permanently with screws or adhesive.
- Suitable for outdoor environments where anti-slip tapes can’t be applied because of winter weather constraints.
- An even more cost effective option to our Step Covers when a nose is not required.

No Skidding® FRP Step Covers are durable anti-slip fiberglass treads and nosings designed for stairs. They are used for both interior and exterior applications and are suitable for concrete, wood, stone, metal or grouted steps.

No Skidding® FRP Step Covers are lightweight, versatile, easy to install, available black, yellow or black with yellow safety stripe for our flat plates and step covers. No Skidding® FRP Treads are constructed with our proprietary blend of mineral abrasives applied over thermostet polyester fiber reinforced polymer panels.

Many slips on stairs happen at the edge of a step when the surface wears and the edge becomes rounded. Wear, water, dust, dirt, ice or oil on the stairs heightens the problem creating a potentially dangerous situation. No Skidding® Step Covers and Treads are designed to be applied over existing stairs thereby quickly creating a safe, slip-resistant surface that provides traction and safety.

No Skidding® Step Covers and Panels can be pressure sprayed up to 1000 psi.

Before After
Flat step plates are available in Fine, Medium or Coarse Grits. 4” depth x 24” – 48” lengths, both Yellow or Black (.065” thick).

No Skidding® Anti-Slip Fiberglass (FRP) Solutions

No Skidding® is a registered trademark of No Skidding® Products, Inc., Toronto, Canada.

Typical Surfaces:

- Stone, grating and metal.
- Concrete, wood, brick, tile, and outdoors.

No Skidding® Anti-Slip Fiberglass (FRP) Treads and Panels can be installed in seconds, and are indicated for use in any wet or dry area where the application of a coating may be impractical.

Typical Applications:

- Ramps
- Steps & stairs
- Fire escape landings and stairs
- Walkways
- Steps & stairs
- Decking
- Floor repairs
- Industrial
- Gas, Oil, Mining
- Education/Medical
- Transportation
- Retail & restaurants
- Hotels & apartment stairs
- Around machinery
- Manufacturing & warehousing
- Plated handrail & public buildings
- Industrial & commercial ramps & stairs
- Industrial & commercial spaces & platforms
- Warehouses
- Warehouses & platforms
- Loading docks & loading platforms
- Shipping & transportation
- Outdoors & work areas

No Skidding® Anti-Slip Fiberglass (FRP) Treads and Panels are a quick and simple solution for greasy, slippery floors and stairs which cannot be painted or coated due to weather, lack of downtime or are chemically damaged. Anti-Slip FRP Tread and Panel Systems have a heavy duty resin bonded anti-slip surface that matches FRP Step Covers and FRP Landing Covers. These sheets can be butted together to produce slip-resistant walkways and work areas.

In addition to our No Skidding® FRP Panels, Treads and Step Covers for instant anti-slip protection, Anti-Slip Floor Care, Anti-Slip Strips and Tapes, Reflective and Photoluminescent Tapes.

No Skidding® also offers a comprehensive range of Anti-Slip Coatings, Anti-Slip Treatments, Anti-Slip Floor Care, Anti-Slip Strips and Tapes, Reflective and Photoluminescent Tapes.

Our aggressive, heavy-duty pressure sensitive durable, quick solutions to help reduce slips and falls and to reduce slip-and-falls and help to ensure a safer environment for workers and visitors. No Skidding® FRP step covers, panels and plates are a quick and easy solution for making work areas, ramps and stairs anti-slip when weather conditions won’t accommodate an anti-slip coating or anti-slip tape or limited downtime won’t accommodate an anti-slip coating.

Let us help you create a safer environment today.
Features and Benefits of No Skidding® Anti-Slip FRP Solutions:

- **Highly resistant to salt and salt water.**
- **Suitable for concrete, wood, brick, stone and metal.**
- **Available in a variety of sizes.**
- **Can be fixed permanently with screws or adhesive.**
- **Suitable for outdoor environments where anti-slip tapes can't be applied because of winter weather constraints.**
- **An even more cost effective option to our Step Covers when a nose is not required.**

No Skidding® Step Covers and Treads

- **Durability:** FRP step covers and nosings are designed for stairs, terraces, and ramps. They are used for both exterior and interior applications and are suitable for concrete, wood, stone, brick, or metal steps.
- **Easy installation:** FRP step covers can be installed using screws or adhesive and require virtually no downtime or inconvenience. They are easily installed and adhered to floors or ramps using adhesive or screws.
- **Quick and easy maintenance:** FRP panels and step covers can be swept to loosen and remove dirt. Step covers and walkways can be cleaned using a general purpose industrial floor cleaner. For embedded dirt, use a stiff bristled brush with an industrial adhesive abrasive applied over thermoset polyester fiber reinforced polymer panels.

No Skidding® Flat Plates

- **Suitable for outdoor environments where anti-slip tapes can't be applied because of winter weather constraints.**
- **Available in a variety of sizes.**
- **Can be fixed permanently with screws or adhesive.**

No Skidding® Walkway and Ramp Panels

- **Suitable for concrete, wood, brick, stone, and metal.**
- **Provides a quick fix for slippery surfaces that can't be easily resurfaced.**
- **Available in three grit textures for excellent anti-slip properties.**
- **Ideal for indoor and outdoor applications.**

Features and Benefits of No Skidding® Anti-Slip FRP Solutions:

- Durable FRP base that resists warping, stretching and swelling.
- Resistant to salt and salt water.
- Superior gritted anti-slip surface available in coarse, medium and fine textures.
- Quick and easy installation in all weather conditions.
- Can be walked on immediately with minimal lost time and work stoppages.
- Suitable for concrete, wood, brick, stone and metal interior and exterior applications.
- Easy to install - can be screwed into place or glued into place with a urethane / polyurethane adhesive.
- Can be installed in winter months using screws.
- Available in easy to install treads and panels.
- Available in black or yellow and also black with yellow safety stripe for our flat plates and step covers.
- Available in coarse/heavy duty, medium and fine.
- Can be fixed permanently with screws or adhesive.
- Suitable for concrete, wood, brick, stone and metal.
- Available in a variety of sizes.
- Can be fixed permanently with screws or adhesive.
- Suitable for outdoor environments where anti-slip tapes can’t be applied because of winter weather constraints.

No Skidding® Flat Plates

No Skidding® Anti-Slip FRP Plates are constructed from a durable FRP base which is resistant to buckling, rotting and extreme weather. Available in three grit textures for excellent anti-slip properties. Ideal for indoor and outdoor applications.

**Features and Benefits of No Skidding® FRP Plate Anti-Slip Products:**

- Reduces slips on steps, railway ties, walkways, wooden decks, marine applications, bridges, etc.
- Used in both indoor and outdoor applications.
- Suitable for concrete, wood, brick, stone and metal.
- Available in a variety of sizes.
- Can be fixed permanently with screws or adhesive.
- Suitable for outdoor environments where anti-slip tapes can’t be applied because of winter weather constraints.
- An even more cost effective option to our Step Covers when a nose is not required.

Before

After
The Problem:
- Slips and falls are the leading causes of accidental death and third leading cause of disability - CDC
- Slips and falls are the leading cause of workers’ compensation claims - NSIT
- Slips and falls are the greatest source of personal liability claims within the restaurant industry in the USA - National Restaurant Association
- Slips and falls are the most common workplace hazards and make up over a third of all major injuries - HSE, UK

In the USA alone 80% of worker’s compensation claims are attributed to employees slipping or slippery floors - Industrial Safety & Occupational Health Marking’s. 2nd edition

Compensation and medical costs associated with employees slipped accidents is approximately $20 billion annually in the USA alone - National Safety Council

Slips and falls in public places are the leading cause of premises liability injuries. Over 800,000 people are injured in slip and fall accidents each year - No Skidding® FRP Anti-Slip Step Covers

No Skidding® high traction, slip-resistant coatings, treatments, floor care, sealers, tapes, and FRP step covers, panels and plates are proven, practical and cost effective ways to reduce slip and falls and help to ensure a safer environment for workers and visitors.
